

## Certificate

We hereby confirm to

**Rodanco BV  
Robijnstraat 50  
1812 RB Alkmaar  
The Netherlands**

that the oxidation stabilizer

**AO 1202**

was successfully tested in the project

Evaluation of No-Harm Properties and Relative Efficiency of Oxidation Stabilizers for Fatty Acid Methyl Ester as Fuel Component  
(AGQM-Project 550\_2008\_3)  
October 2018 – April 2019

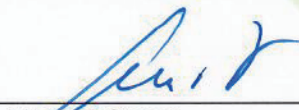

The product was tested as follows:

**AO 1202 – B 1096**

**In particular, we confirm that the no-harm criteria specified in the project report were met and the relative efficiency against 3,5-di-tert-butyl-4-hydroxy-toluene (BHT) was evaluated.**

**The project report is part of this certificate.**
