that the oxidation stabilizer

AO1285

was successfully tested in the project

No-Harm Evaluation and Relative Efficiency of Oxidation Stabilizers for Fatty Acid Methyl Ester as Fuel Component

January 2022 – May 2022

The product was tested as follows:

AO1285 – B1110

In particular, we confirm that the no-harm criteria specified in the project report were met and the relative efficiency against 3,5-di-tert-butyl-4-hydroxy-toluene (BHT) was evaluated.

The project report is part of this certificate.
